

# Health Education

Instructor: Anna Taylor

Dates: May 23-June 30

Cost: \$350

Camp Donoho Health Education is a self-paced, online course that will explore the foundations of developing a healthy lifestyle. Topics to be covered during this course include, but are not limited to: mental, physical and emotional health; healthy and safe relationships; nutrition and physical activity; and drug education.

All students will be required to have an active Donoho email account, laptop, and Internet access throughout the duration of the course.

All students must attend a mandatory course introduction on Thursday, May 23, from 11:00 to 11:30 a.m. (immediately following the last final exam) in Mrs. Taylor's room, room 10 in the Upper School. During the course introduction, students will receive important course documents, set up online testing accounts, and begin working on course material. After this on-campus meeting, students are required to work independently off-campus, and the instructor will be available via email to assist students.

All course assignments will be completed and submitted digitally (no textbook required), and all unit tests will be completed online. The students are not required to come to campus except to take the on-campus final once they have completed all of the course material. Final examinations will be offered by appointment only on Wednesdays from 9:15-10:00 in room 10 in the Upper School (May 29, June 5, June 12, June 19, and June 26).

All course material must be completed by June 30. (Minimum—5 students)

\*This course is a credit earning course exclusive to Donoho students..
