# Upper School Math Instructor
# Job Description

**Job Description:**
The Donoho School is seeking a passionate and dedicated Upper School Math Teacher for junior and senior level math classes. The Math Teacher will be responsible for designing and delivering high-quality instruction in math areas of Precalculus, Trigonometry, Calculus, and College Algebra, including dual enrollment and Advance Placement courses. The ideal candidate will possess strong content knowledge, instructional skills, leadership skills, and a commitment to meeting the needs of the Donoho family.

**Math Teacher Responsibilities:**
- Designing, developing, and delivering quality, rigorous math lessons which meet school, dual enrollment and/or Advance Placement requirements.
- Assess student learning and progress through various formative and summative assessments, providing timely and constructive feedback to students and parents
- Establish and maintain a positive learning environment that fosters respect, collaboration, and active participation, while managing classroom behavior and promoting a culture of academic excellence.
- Collaborate with colleagues, including other teachers and administration, to share best practices, align curriculum, and support student learning.
- Utilize technology to maintain accurate grade reporting, innovative learning experiences, and promote responsible digital citizenship
- Perform other duties such as attending various school activities, maintaining open lines of parental communication, sponsoring clubs/student groups, fulfilling other duties as assigned by the Director/Head of School, and commitment to professional development.

**Qualifications:**
- Bachelor's degree in Education, Math, or related field; Master's degree, preferred
- Additional requirements apply for teaching dual enrollment courses through Jacksonville State University
- Experience teaching math at the secondary and/or post-secondary level is highly desired
- Strong knowledge of math content and pedagogy, including best math practices and curriculum development and desire to continue life-long learning
- Excellent communication, interpersonal, and presentation skills, with the ability to engage and motivate students in scientific learning
- Flexibility and adaptability to meet the changing needs and demands of the school community

**Contact:**
